

Liv B Mobile Filters

LIV B LIFESTYLE

Liv B Lifestyle was created for any sort of lifestyle photo! City shots, outfit photos, portraits, and more! An extremely versatile filter that brightens whites, enhances blues and keeps your skin tone natural.

LIV B WILD

Be free, wild child. This filter was created with nature in mind. Perfect for outdoor photos in bright sunlight that might need a bit of toning down! Lush greens, soft blues, and golden skin tones are what Liv B Wild offers.

LIV B SUNSET

If you're anything like me when it comes to photo-taking, you probably have a whole album full of sunset photos. And as beautiful as they are, sometimes a little artistic editing makes them even more eye-popping.

LIV B SWEET

Liv B Sweet keeps your food looking how food should, just with a bit more artistic flare. A soft faded look helps the shadows stand out without being too much, and gives an almost vintage, magazine style to the photos.

LIV B SAVORY

As you can see, Liv B Savory isn't just for savory recipes, just look at these pancakes! Golden brown tones with bright whites and natural food colours like blue and purple (check out those blueberries! Gorgeous without looking too edited.)

LIV B FRESH

Liv B Fresh has your back when it comes to veggie-heavy dishes. Let those vibrant colours pop without looking fake! The perfect food tones with just a bit of edited flair. Great for photos with lots of green.
